

CASACC Christmas Celebration

Traditionally there is no report for the Christmas Celebration, but it's nice to see pictures and in this case report on the one business item.

Business Items

New nameplates have been fashioned for the President and Alan Patten but, sadly, they do not have a bust of our Honourary President and Founder, Alan Patten. Perhaps the group can provide more insights for designing such a bust as described in the November minutes.

There were 2 related items proposed during the business portion of the meeting.

Both of these items went down in flames.

Proposal 1: Amend paragraph 37 to change C&BL to throw out 1-high and 1-low score per venue in order to avoid skewing rating based on one member's experience by adding the text in green as follows:

From:

37. The scores will be recorded by the President and averaged to obtain an overall score for the Venue. This score will be reported on the venue report.

To:

37. The scores will be recorded by the President and averaged to obtain an overall score for the Venue. (The High and Low scores for the venue will not be considered in the average.) This score will be reported on the venue report.

Proposal 2: Amend paragraph 37 to change C&BL to use a weighted score of average score * number of votes considered to determine the high score for yearly winner to avoid small shows having outsized impact on yearly winner by adding the text in green as follows:

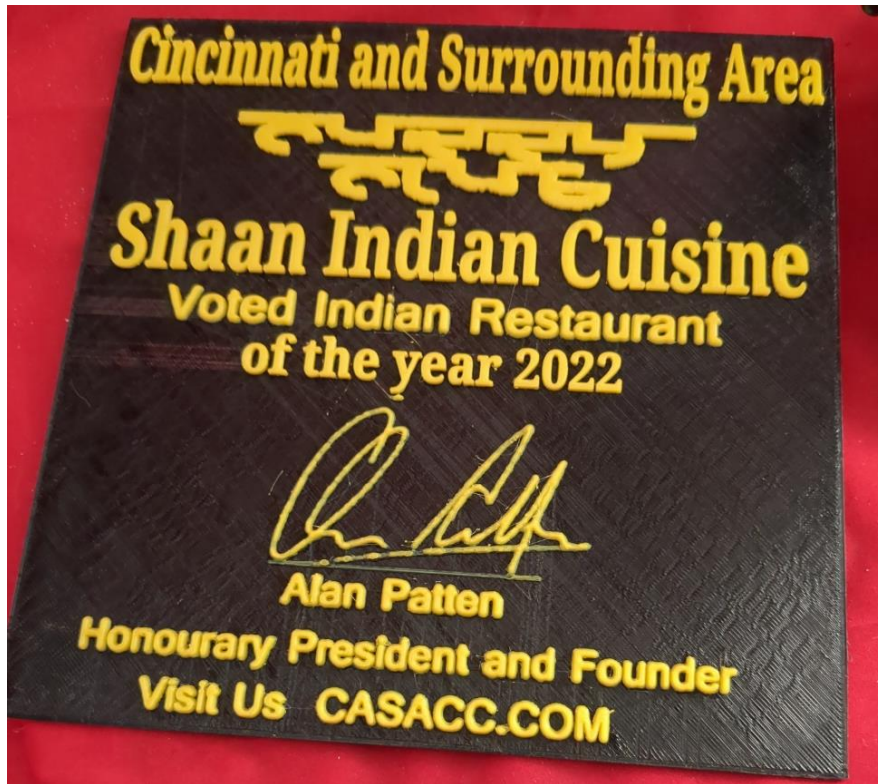

From (This original paragraph could be changed slightly by proposal 1, but the added text would remain the same):

37. The scores will be recorded by the President and averaged to obtain an overall score for the Venue. This score will be reported on the venue report.

To:

37. ...The average score will be multiplied by the number of votes considered. This score will be reported on the venue report.
