### The Report

This month's get together had special guests Stuart and Chris from the Cheltenham arm of the club. I want to say it was because of these special guests that the club saw an amazing showing at both the pre-drinks and dinner. The acceptance count at the start of the day was 9. By the end of the pre-drinks, the count had gone up to 13.

Due to how amazing the showing was and despite multiple heads up by the President, Ambar India refused to believe that 13 people would be showing up to their restaurant. As a result, this led to the club being told there are not enough tables. Somehow though, and after some encouragement from club members, the restaurant staff were able to magically find the tables needed to seat everyone.

Overall the day was a success with the group even going out for post dinner drinks at Gaslight Bar and Grill.

#### The Good

- The restaurant did not believe that 13 people would show up. We showed them.
- Food was given high marks

#### The Bad

- Questionable bathrooms
- Took a long time to get water

#### The Ugly

- Matt and Sven refusing to take a good picture. Due to this, I have included two pictures.
