### The Report

This month the club found itself going to an old favorite, Dusmesh. The restaurant was last visited in 2019 and scored an amazing 8.8. Due to this, the president's hopes for the restaurant were high. In fact, they were too high.

The pre-drinks started at Humble Monk Brewing with a strong showing of 8 members showing up. Drinks were had, crowlers were bought, and the club moved themselves over to Dusmesh. From here on out, hopes started to be crushed one by one. The restaurant was clearly understaffed and took a very long time for almost everything. There was a very long wait for poppadoms, the table had not been set with silverware for all members, and the food took a very long time. Once the food did come out, the overall sentiment was that the food was very good. Although, a couple of dishes missed the mark by quite a bit. So much so that one member commented, *"I'll probably never come back here"*.

The long wait times were not the end of the mishaps either. The staff had one final prank to pull - trapping a member Tyson's car in the parking lot so he could never escape. Eventually Tyson was able to escape but only after questioning every person in the restaurant before finding out it had been a staff member who had blocked his car.

Overall the restaurant missed its all time high score of 8.8 and had been demoted to a 6.9 by the end of the night.

#### The Good

- Overall the food was mentioned as the highlight
- Clean bathrooms

#### The Bad

- The restaurant was not ready for a group of our size. Everything took a very long time.
- Huge misses on some of the dishes

## The Ugly

- Restaurant staff blocking Tyson's car
